(54) Title: A FLUID BAG, USE OF ONE OR MORE FLUID BAGS AND A SYSTEM INCLUDING ONE OR MORE FLUID BAGS

(57) Abstract: The invention concerns a fluid bag (10) that contains either a dialysis fluid for hemodialysis or a replacement fluid for replacing ultra-filtrate that is withdrawn from a patient or a fluid that is a rest product from a process of hemodialysis or the like. The fluid bag (10) has a first main sheet (14) and a second main sheet (16) located opposite to the first main sheet (14). The fluid bag (10) has a size such that it contains at least a certain quantity q ml of fluid when it is completely filled with fluid. The fluid bag (10) is arranged such that the distance between said first (14) and second (16) sheets never exceeds a certain value v mm, wherein: $q \geq 2000$, and $v \leq 2q/100$. The invention also concerns a use of one or more such fluid bags (10) as well as a system including one or more such fluid bags (10).
